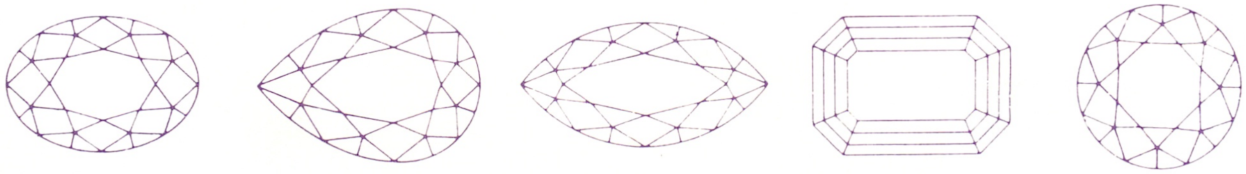
LIMITED REMOUNT WARRANTY

Description of the jewelry purchased by Kathrine Aeschliman, date 7/1/80
job # A65172 type (wt. yl.) yellow mounting # 4210 weight (center) .26
total weight .31 Price (excluding tax) $ 253.00
Misc. information ______

Under ten power magnification, and using a scale of zero to ten the main diamond has been given the following grading specifications: **CLARITY** 2 **COLOR:** 2 **CUT** 2



The stones are warranteed against loss from the setting for two successive six month periods, negligence, bending, distorting or willful intent excepted. The warranty must be renewed in six months from the above date by examination and recorded in the space provided below.

All jewelry should continue to be checked every six months for protection against stone loss. We further recommend that jewelry be insured. If your insurance agent requires a written appraisal, that service can be purchased from Pounder's.

We will clean and refinish your jewelry any time at no charge. However, after the first year, any other maintenance expenses and stone liability are the responsibility of the owner. Responsibility for damage such as chipped stones, fire damage or theft is assumed by the purchaser.

In caring for your jewelry we recommend any commercial jewelry cleaner. Strong solutions such as bleaches, oxidizers and mercury will destroy the alloy content of the mounting.

To make you as happy as possible, we strive to sell fine quality merchandise coupled with the best in customer relations. Please let us know how we can be of further service to you, and, if you find us deserving, recommend us to your friends. Thank you.
